

Forecast Highlights

December 15, 2021
3:47 PM

*****Gusty south winds will continue into this evening.**

*****Rain will begin late tonight into Thursday. After a break in many locations Thursday night, heavier rains will spread into the region, mainly Friday afternoon and Friday night. Isolated thunderstorms are possible.**

*****Rainfall totals from 1.5 to around 3 inches are expected before the rain comes to an end late Friday night into Saturday morning. Locally higher amounts cannot be ruled out where thunderstorms repeat over the same locations.**
